8th International Conference

"Global Peace through Emotional Literacy, Wellness Psychology of Workplace Behavior, and Effective People Management" Jointly Organized by

World Without Anger (WWA) (Regd.), Nepal and Global Peace Foundation (GPF) Nepal In association with World Emotional Literacy League (WELL), USA & Global Harmony Association (GHA), India

Co-organizer: Quest International College, an affiliate of Pokhara University, Nepal

November 24, 2018 Kathmandu, Nepal

Background and Theme

The world in first quarter of the 21st century has increasingly realised the importance and prominence of global peace and human resources to ensure the sustainability of the Earth and human living. While innovation is the growth engine for organisations, it is the human capital that spurs innovation than any other organisational resources for which research into behaviour science, psychology and emotional intelligence has assumed increased value in modern organisations and society.

However, geo-political changes and socio-economic complexities in the recent decades have given rise to erosion in human values, rise in human stress level, and social disturbances in the quality of life of Earth's people. At the dawn of the new millennium, what is required most is to promote global peace through emotional literacy, wellness psychology, management of workplace behaviour, and effective people management. Peace education, emotional intelligence and effective management of human resources and other organisation systems play an important role in building peace and harmony and for achieving balanced development and sustainability in order to develop a globally sustainable, peaceful society.

Goals of the Conference

- To present and explore innovative approaches and practices in emotional intelligence (EI) and behavioural science research and applications;
- To provide a platform for academicians, researchers, clinicians, policymakers, practitioners, and students for intellectual discourse and for presentation of their ideas, research results and innovative practices in the areas of EI, psychology, organisation and human resource management and global peace initiatives;
- To be a platform for fostering exchange of global peace, EI, organisation and people management thoughts between practising academicians and managers; and
- To explore peace education and curriculum developments for teaching and learning emotional skills, and to model programme applications in business, organisations, academic institutions, and government organisations for a sustainable future

The conference slated for November 24, 2018 will be an ideal forum for learning and networking as international scholars, researchers, educators, learners and consultants as well as experts from different professional backgrounds will present their papers and posters on global peace initiatives, Emotional Intelligence (EI) research and applications in the areas of education, organisation behaviour and management, and organisation communication, society, and psychiatric applications.

Call for papers

The conference invites research papers and abstracts, conceptual papers and case studies related to the theme and sub-themes, more particularly in areas of Emotional Intelligence, Education, Psychology, Cross-Cultural Management, Buddhism/ Peace, Human Resource Management, Business and Behavioural Sciences and Organisation Communication.

The conference also solicits contributions of research-based posters that address themes and topics of the conference, including figures, tables and references of novel research materials.

Those willing to present their papers *in-absentia* through a video-conferencing mode can also register by clearly mentioning it.

The subthemes and topics of interest for submission include, but are not limited to:

- > Peace Psychology and Education
- □ Global Peace Science
- **Emotional Intelligence and Anger Management**
- ➤ Transforming anger: Recognizing Fear and Nurturing Compassion
- Cross-Cultural Diversity Management
- > Transformational Leadership
- Buddhism/ Peace & Harmony
- > Human Resource Management
- Behavioural Sciences and Management
- Organisation, personnel, and industrial Psychology
- Mental Health and Rehabilitation
- Management Communication for Peace and Organisational Development
- ldentity-based Conflict: Identity-based conflict has its roots in limited, often adversarial conceptions of human community. In the 20th century, identity-based divisions led to genocidal violence and grave human rights abuses. It requires solution and application through an innovative value-based approach to peace building to alleviate radicalism rooted in identity-based conflict
- Interfaith Peace Building: Achieving sustainable peace and development in communities, nations and the world as moral and innovative leaders. Papers should explore solutions and applications to enhance social cohesion, harmony through interfaith peace building
- The Chinese Happiness Puzzle: The puzzle lies in the fact that despite the fast development of Chinese economy, the average happiness level of Chinese people has made no rise during the last 3 decades; it requires analysis of the puzzle from psychological point of view.
- New and Emergent IT themes in Global Peace: Social media and society, Artificial Intelligence and being human, Virtual Reality and the real world, Online media and Truth, Being safe online, Online technologies and global poverty, Mobile communications and the emerging economies

About World Without Anger (WWA)

Registered in August 2007 under the Societies Registration Act, 1977, WWA is a non-governmental, non-profit organization established with a view to implementing emotional intelligence education for preventing devastating effects of anger on individuals, their families, and their communities, and to contribute to the peace promotion in the world and Nepal, the birthplace of Lord Buddha. WWA is affiliated with Life Without Anger (LWA), Oregon, USA in 2007 and in 2009 with World Emotional Literacy League (WELL) USA. WWA works with local and international peace-promoters to create peace in a strategic and constructive ways. WWA has been working to create the anger-free society Dr. Dean Van Leuven first presented to the world in his book "A Life Without Anger," in order to bring peace to the heart, home, society, nations and the world.

WWA provides emotional intelligence training to school and university students, communities, groups, government bodies, and other service organizations. The training aims at transforming negative emotions into positive ones in all aspects of our society. In the broader sense, it strives to spread the inclusive approach of Dr. Dean, in terms of teaching/learning, the principles of Emotional Literacy training in the world for the mission of building World Peace.

About Global Peace Foundation (GPF) Nepal

The Global Peace Foundation (GPF) is an international non-sectarian, non-partisan, non-profit organisation, which promotes an innovative, values-based approach to peace building, guided by the vision of One Family under God. GPF engages and organizes a global network of public and private-sector partners who develop community, national, and regional peace building models as the foundation for ethical and cohesive societies. The Global Peace Foundation affirms the importance of universally recognized principles and shared values as essential to building social cohesion within nations and the global community.

GPF Nepal has been co-partnering with the WWA since 2010 in organising international conferences in different themes related to global peace, EI, psychology and behaviour sciences.

World Emotional Literacy League (WELL), USA

It a non-profit educational project established with the objective of teaching *Emotional Literacy* to the people of the world. It believes that ensuring everybody has a fundamental understanding of anger and other negative emotions will help us all lead a life that is peaceful, meaningful, and joyful. *Emotional Literacy* helps us to advance personally and as a society as much as the ability to read, write, and do mathematics does. Nepal is the first country in the world to introduce this training in schools on a national level.

National Association of Psychological Science (NAPS), India:

It is an endeavour for the development, representation and advancement of different areas of psychology as a science. NAPS aims to promote, advance and disseminate the interests of scientifically oriented psychological and entrepreneurial research and application for benefit of an individual and society concern. It provides the platform for the scholarly exchange research in different areas of psychology and publishes a bi-annual Indian Journal of Psychological Science.

Global Harmony Association (GHA), India

Founded in 2005, the GHA pursues a mission to bring global peace from harmony and to build a conscious way for harmonious civilisation on scientifically based 'ABC of Harmony' and through 'Global Peace Science' general education GHA since February 15, 2005 is an international NGO uniting more than 600 members in 65 countries and more than one million participants from the GHA collective members in 80 countries.

Quest International College

Established in 2009 and affiliated with Pokhara University, Nepal, QIC is a management school that offers an ideal setting for learning that envisions creating a centre for Academic Excellence in management education and development, by imparting quality management education, professional development skills and capabilities, and contributing significantly in the field of research and development. It has been running MBA, BBA, and BHM programmes at its school in Gwarko, Lalitpur. It aims at producing future businessmen, top global executives, and bankers, managers who can handle government and private organisations efficiently.

About Nepal & Historical Places

Nepal is the birthplace of Lord Buddha, the Champion of Peace. Lumbini is hallowed ground as Shakyamuni Buddha was born here in southern Nepal more than twenty-five hundred years ago. As a sacred birthplace, it is an important pilgrimage site for Buddhists from around the globe.

Kathmandu is the largest city and capital of Nepal and the namesake of the Kathmandu Valley. The city is located in the north-western part of Kathmandu Valley and it covers an area of 50.67 square kilometres. The city generally has a pleasant climate with comfortable warm days followed by the cool mornings and nights. Kathmandu's Tribhuvan International Airport is the largest and only international airport in Nepal.

The city's rich history is nearly 2000 years old, as inferred from an inscription in the valley. The ancient and refined traditional culture in Kathmandu, for that matter in the whole of Nepal, is an uninterrupted and exceptional meeting of the Hindu and Buddhist ethos practiced by its highly religious people. It has also embraced in its fold the cultural diversity provided by the other religions such as Jainism, Islam and Christianity. People of other religious beliefs also live in Kathmandu giving it a cosmopolitan culture.

Kathmandu valley has been described as "An Enormous Treasure House of Art and Sculptures". These treasures are made of wood, stone, metal and terracotta, and found in profusion in various temples, shrines, Stupas, Gumbas (Gompas), Chaityas, Vihars and palaces. Kathmandu is the best place to shop in Nepal for contemporary handicrafts, fashion clothing, great books, music or traditional souvenirs and curios.
